A managed program to guide you through the course and help keep you on track

Medical Coder Certification Means Success!

Certified Coding Associates are in high demand throughout the healthcare industry. According to the US Bureau of Labor Statistics, medical support professionals, including Medical Coders, are one of the 10 fastest-growing healthcare occupations. Studies show that Medical Coders are paid accordingly for their skills. Our CCA course will take the average student **348 hours** (5 to 8 months) to work through to completion.

In-Depth Training:

With TROY's Medical Coding Certification course you will learn the essentials of Medical Coding including evaluation and management coding, proper billing procedures for Medicare and private insurance companies, anatomy and medical terminology, claims appeals and more.

Plus TROY's course includes resources that are used by Medical Coders on the job including the Department of Health's International Classification of Diseases, Ninth Revision (ICD-9) and the American Medical Association's (AMA) Current Procedure Terminology (CPT).

ICD-9 is a book of coding guidelines compiled annually by the American Hospital Association, Healthcare Financing, National Center for Health Services and the American Health Information Management Association. CPT is a book of codes maintained by the AMA that are used to represent medical and psychiatric services. With TROY's course for Medical Coding Certification, you will get the latest version of both publications.

Exam Information: Exam fee not included in tuition cost.

CertBlaster:

Certified Coding Associate CertBlaster

TROY's CertBlaster Exam Simulations provide a realistic test environment and offer the most effective way to prepare for your Certified Coding Associate certification.

Troy University's Continuing Education programs are dedicated to meeting your training needs. These programs include certificate programs, customized business and industry training, personal development and professional development. The Continuing Education Unit (CEU) is a nationally recognized method of quantifying time spent in the classroom during professional development and training activities. The primary purpose of the CEU is to provide a permanent record of the educational accomplishments of an individual who has satisfactorily completed significant non-credit educational and career enhancement experiences. One CEU is equal to ten contact hours of participation in an organized continuing education experience under qualified instruction. For more information about customized sources for your needs, please call your nearest TROY campus or site. All opinions, conclusions or recommendations expressed are those of the instructors and do not necessarily reflect the views of the University.
