# **Microsoft Certified Systems Engineer + Specialties and DoD 8570 Information Assurance Technology Level 2 and Information Assurance Management Level 1**

**Course Number IT 0003 \$4,500**

Troy University offers you one of the most effective ways to become a Microsoft Certified Systems Engineer and achieve DoD 8570 Information Assurance Technology Level 2 and Information Assurance Management Level 1. This high level engineering program requires successful completion of TROY's MCSA program as a prerequisite or prior instructor approval. The courseware is targeted for an in-depth study and implementation of Microsoft's Active Directory with a Security focus. TROY's new **Live Lab** environment ensures students gain hands on experience implementing and administering Microsoft's Active Directory technologies. This program leads to Microsoft's highly recognized MCSE certification and CompTIA's Security+ technical certification.

TROY's new Learning Management System (LMS) drives the delivery and manages the content for this unique online program. Certified mentoring by a subject matter expert is available on-demand 24/7. Customized mentoring exercises and test preparation are integrated into every program module. The **Live Lab** environment offers students full control of servers and workstations anytime and from anywhere to build implementation experience. TROY's Microsoft Certified Systems Engineer program provides an effective, convenient and affordable way to achieve your certification goals and is an ideal educational path for those individuals who want to gain advanced systems engineering skills.

## **Microsoft and DoD 8570 Certifications Mean Success!**

Microsoft Certified Systems Engineer (MCSE) for Server 2003 + Security

Advance your career by ensuring that you have the skills to successfully manage and troubleshoot server environments running on the Microsoft Windows operating system. MCSE is the most widely recognized technical certification in the IT industry. By earning this premier MCSE credential, IT professionals are demonstrating that they have the skills necessary to lead organizations in the successful design, implementation and administration of an advanced Windows operating system in complex computing environments. Upon successful completion of the exams, the participant will meet the requirements for several levels of DoD 8570 certification. The TROY MCSE program will take the average student **270 hours** to complete.

Prepares the student for the following certification exams:

Exam 70-293: Planning and Maintaining a Microsoft Windows Server 2003 Network Infrastructure

Exam 70-294: Planning, Implementing and Maintaining a MS Windows Server 2003 Active Directory Infrastructure

Exam 70-298: Designing Security for a Microsoft Windows Server 2003 Network

Exam: SY0-101 Security+

**TROY EXCLUSIVE SPECIALTIES: Choose Two Technical Specialties**

Microsoft Certified Technology Specialist (MCTS): SharePoint

Microsoft Certified Technology Specialist (MCTS): Exchange

Microsoft Certified Technology Specialist (MCTS): Vista

Microsoft Certified Technology Specialist (MCTS): SQL

Cisco Certified Network Associate (CCNA)

CompTIA Linux+ or CompTIA Server+ or CompTIA Network+

Oracle Certified Associate (OCA) 10g

(Specialties are not required for MCSE Certification)

**Prerequisites:** The MCSA program is a prerequisite to the MCSE program unless a student receives prior approval by the Training Systems Director.

Salaries for these high-demand technical skills can average between \$50,000 and \$70,000 per year.\*

Troy University's Continuing Education programs are dedicated to meeting your training needs. These programs include certificate programs, customized business and industry training, personal development and professional development. The Continuing Education Unit (CEU) is a nationally recognized method of quantifying time spent in the classroom during professional development and training activities. The primary purpose of the CEU is to provide a permanent record of the educational accomplishments of an individual who has satisfactorily completed significant non-credit educational and career enhancement experiences. One CEU is equal to ten contact hours of participation in an organized continuing education experience under qualified instruction. For more information about customized sources for your needs, please call your nearest TROY campus or site. All opinions, conclusions or recommendations expressed are those of the instructors and do not necessarily reflect the views of the University.
