

In partnership with technology training partner—Knowledge Matters LLC

Instructor-Led Microsoft Certified Systems Administrator (MCSA) Windows Vista Operating System includes DoD 8570 Information Assurance Technology Level 1 and 2 and Information Assurance Management Level 1 Course Number IT 1001 \$4,500

Troy University offers you one of the most effective ways to become a Microsoft Certified Systems Administrator in the growing Information Technology industry. This instructor-led program begins with an introduction to computing technology and networking fundamentals covering A+ and Security+. Microsoft official curriculum and custom developed supplemental curriculum are targeted for Microsoft's MCTS and MCSA certifications.

TROY's Learning Management System (LMS) drives the delivery and manages the content for this unique instructor-led program. With the use of the LMS, instructor and student interaction is maximized both in and out of the classroom. TROY's new **Live Lab** environment ensures students gain hands-on experience implementing and administering Microsoft technologies. The **Live Lab** environment offers students full control of servers and workstations anytime and from anywhere. In this way students can practice what they have learned on live servers and at a time convenient to them. TROY's Microsoft Certified Systems Administrator program provides an effective, convenient and affordable way to achieve your certification goals and is an ideal educational path for those individuals who want to work in the technology field.

Microsoft Certification Means Success!

Microsoft Certified Systems Administrator for Server 2003

Advance your career by ensuring that you have the skills to successfully manage and troubleshoot server environments running on the Microsoft Windows Server 2003 operating system. This program covers MCTS and MCSA curricula. It begins with a review of PC fundamentals including hardware, networking concepts and operating systems. The MCSA Server 2003 course curriculum provides the knowledge to manage and support Windows Server 2003 and Windows 2000 network operating systems. Topics include: Configuring Servers, Implementing Network Services such as DHCP, DNS and WINS, Administering RAS/VPN Servers, Troubleshooting Networks, Securing Network Resources and Supporting Active Directory. The MCSA program will take the average student **270 hours** to complete.

TROY's LMS prepares the student for the following certification exams:

Microsoft Certified Technology Specialist (MSTC): Vista

Exam 70-620: Installing and Configuring Windows Vista Operating System

Microsoft Certified Systems Administrator (MCSA):

Exam 70-290: Managing and Maintaining a Microsoft Windows Server 2003 Environment

Exam 70-291: Implementing, Managing and Maintaining a Microsoft Windows Server 2003 Network Infrastructure

CompTIA Exams

Exam 220-601: A+ Essentials

Exam 220-602: A+ IT Technician

Exam 220-603: A+ Remote Support Technician

Exam 220-604: A+ Depot Technician

Exam SY0-101: Security+

Class Times:

Students meet two nights per week on Monday and Wednesday or Tuesday and Thursday (5:30PM to 9:30PM) for 16 weeks.

Salaries for these high-demand technical skills can average between \$30,000 and \$60,000 per year.*

Troy University's Continuing Education programs are dedicated to meeting your training needs. These programs include certificate programs, customized business and industry training, personal development and professional development. The Continuing Education Unit (CEU) is a nationally recognized method of quantifying time spent in the classroom during professional development and training activities. The primary purpose of the CEU is to provide a permanent record of the educational accomplishments of an individual who has satisfactorily completed significant non-credit educational and career enhancement experiences. One CEU is equal to ten contact hours of participation in an organized continuing education experience under qualified instruction. For more information about customized sources for your needs, please call your nearest TROY campus or site. All opinions, conclusions or recommendations expressed are those of the instructors and do not necessarily reflect the views of the University.
